

THE NATIONAL PETROLEUM INSTITUTE OF MOZAMBIQUE

AN OVERVIEW OF THE PETROLEUM SECTOR

PRESENTED BY: INOCÊNCIA MACULUVE

AAPG – San Antonio, Texas

INTRODUCTION

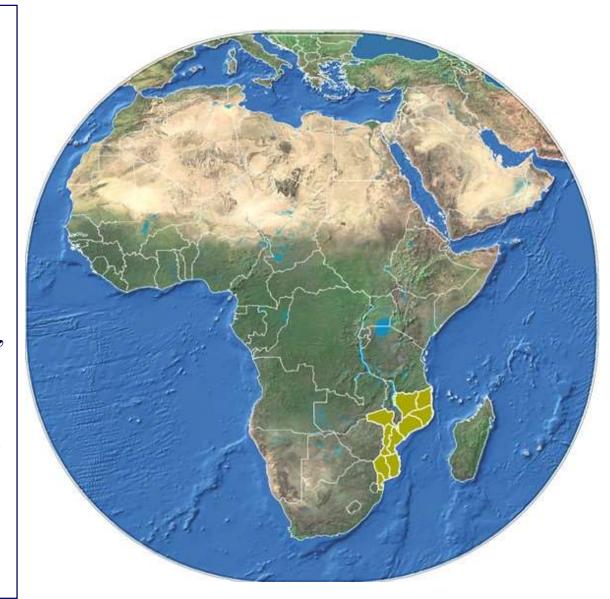

• Location: South-eastern Africa

■ **Land area:** 800,000 sq.km

■ Coastline: 2,700 Km

■ Population: 28 million (2017)

- Capital: Maputo (1.1 million inhabitants)
- Natural Resources: Hydropower,
 Natural Gas, coal, minerals, raw
 wood
- Export: Natural Gas, coal, heavy mineral sands, prawns, cashewnut, sugar, tea, coconut oil and cotton.

LEGAL FRAMEWORK - OIL & GAS SECTOR

- Petroleum Law: Law 21/2014
- Regulation of Petroleum Operations: Decree 34/2015
- Concession Strategy for Petroleum Operations Areas: 2009
- New EPCC Model: Resolution 25/2016 of 6th October
- Specific Taxation and Fiscal Benefits Scheme for Petroleum Operations: Law 14/2017
- Regulation of the Specific Taxation and Fiscal Benefits System of Petroleum Operations: Decree 32/2015
- Natural Gas Master Plan Strategy: 2010
- Legislative Authorization for the Liquefaction Projects of Natural Gas of Areas 1 and 4 of the Royuma Basin: Law 25/2014
- Terms and Conditions for the Supplementary Agreement to the EPCC of Area 4 of the Rovuma Basin: Decree 56/2017

FISCAL REGIME

Production Tax (royalty)

• Oil: 10%

■ Gas: 6%

Back in rights

 Government can participate in all projects undertaken

Income Tax

■ 32% of contractor's gross revenue

SEDIMENTARY BASINS

EXPLORED BASINS

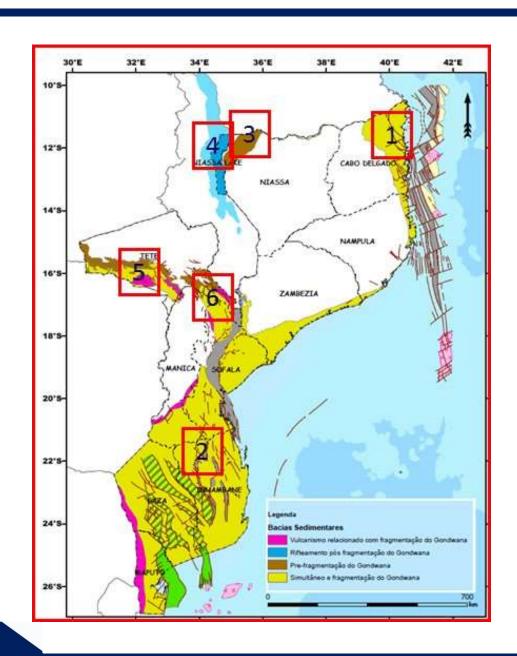

Passive Continental Margin basins:

- Rovuma Basin (1)
- Mozambique Basin (2)

UNEXPLORED BASINS

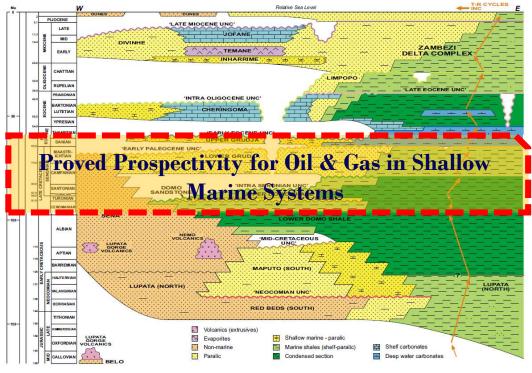

Graben and Rift Type basins:

- Maniamba Basin (3)
- Lake Niassa Basin (4)
- Lower Zambeze Graben (5)
- Middle Zambeze Basin (6)

WELL DATABASE

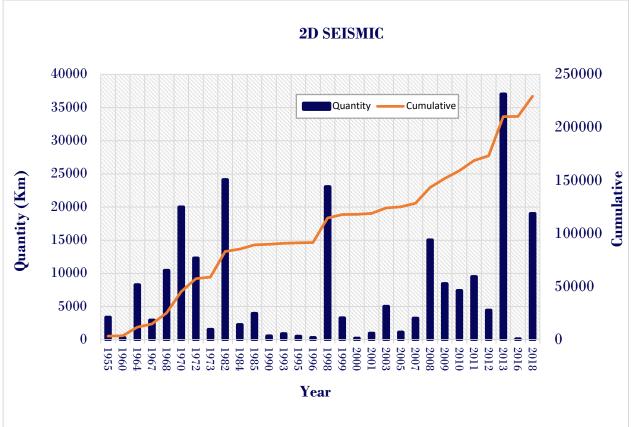

- Wells: 217 wells
 - 109 Exploration
 - 44 Production (including injection)
 - 64 Appraisal

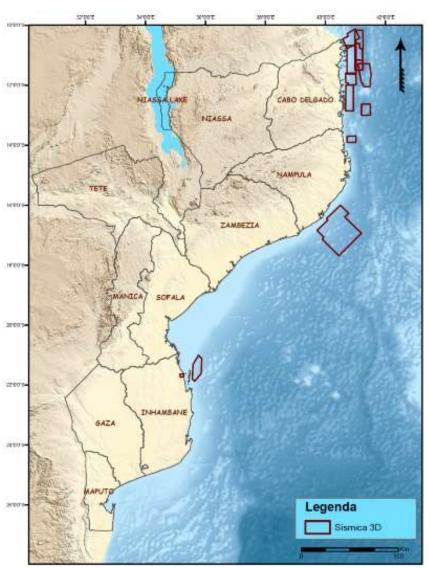

2D SEISMIC DATABASE

• 229,000 km of 2D seismic (Onshore & Ofshore)

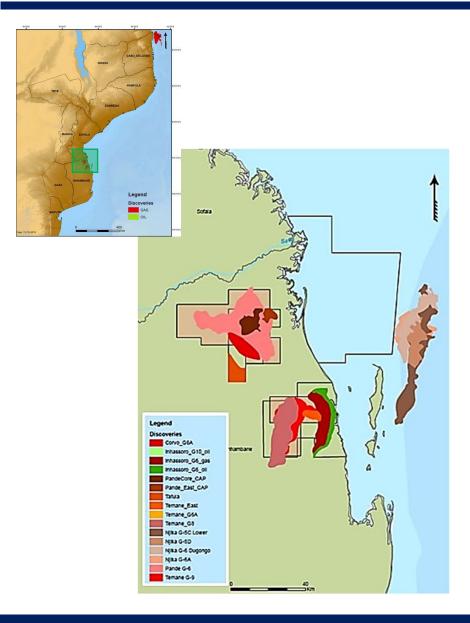

3D SEISMIC DATABASE

• 55.400 km² 3D acquired to date (onshore & offshore)

DISCOVERIES

Mozambique Basin

Source: Assumed Albian – Cenomanian shallow marine shale

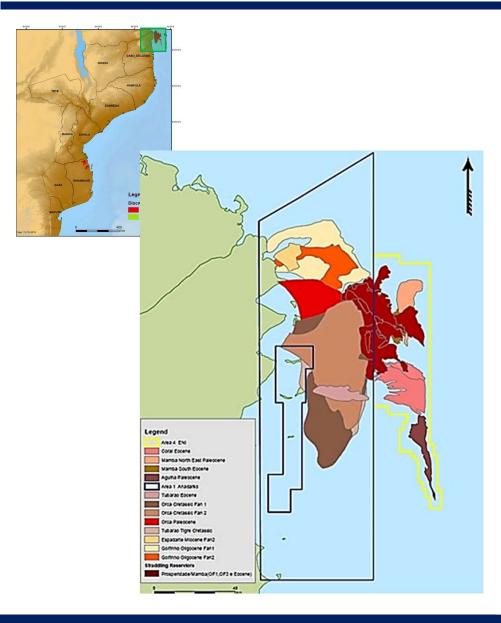

Reservoirs: Upper Cretaceous - Sandstone of Lower
Domo and Lower Grudja FMS, Paleocene and
Oligocene fans and channels from Zambezi Delta
Complex

Traps: Stratigraphic and structural

Seal: Transgressive Marine deposits (mudstone stratum) - Grudja FM.

Resource Estimate: Approximately 8 tcf of GIIP (6tcf Rec.) and 250 mmbbl of OIIP (35mmbbl Rec.)

DISCOVERIES

Rovuma Basin

Source: Assumed Jurassic marine shale

Reservoirs: Tertiary – fans and channels reservoir sandstones and Cretaceous – Basin Floor Fan reservoir sands.

Traps: mainly Stratigraphic, but also Structural and combined.

Seal: Paleocene to Miocene Shale deposits.

Resource Estimate: Approximately 165 tcf of GIIP (115 tcf Rec.)

<u>Temane – Secunda Pipeline</u>

Pande/Temane Fields - Production started in 2004

Capacity

• CPF: 197 MGJ/a

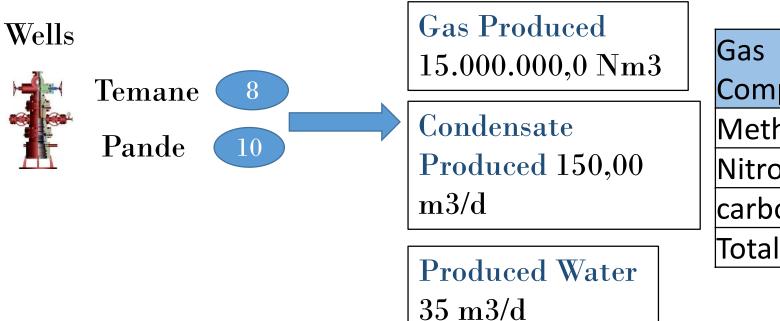

■ MSP: 212 MGJ/a @ 26"

■ MGC: 22 MGJ/a @ 8"

Application of Natural Gas:

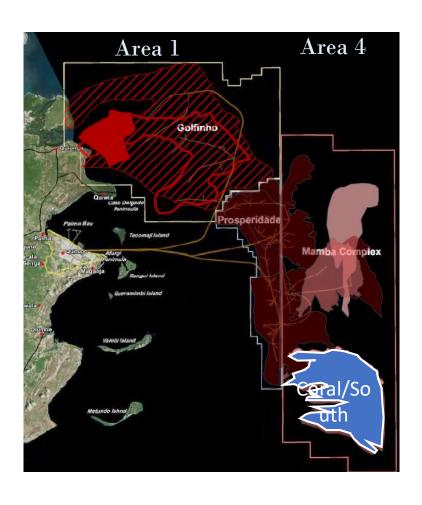

- Power generation
- Fuel to industries (Mozal, Cement plant, etc)
- Fuels to vehicles (CNG -Compressed natural gas)
- Commercial and domestic use -Gas distribution Project

ONGOING PROJECTS - DAILY PRODUCTION QUANTITIES

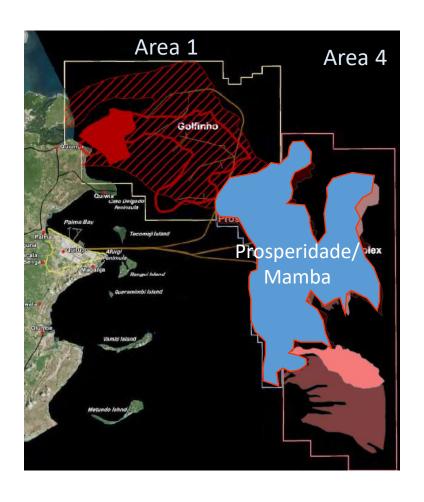

Gas	mol
Composition	(%)
Methane	94,00
Nitrogen	2,14
carbon dioxide	0,00
Total Sulphur	0,00

Coral South – Area 4 (FLNG)

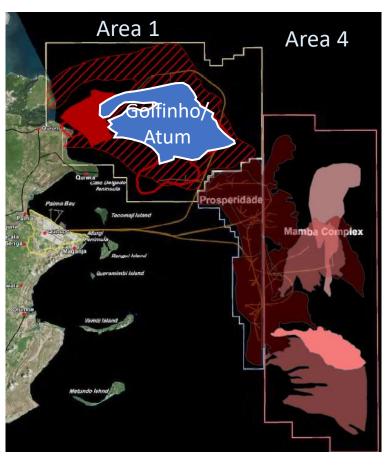

- GIIP of 15.67 TCF
- FLNG, 1 Train with 3,4 MTPA capacity
- 6 Production Wells
- PoD approved February 2016
- FID reached in June 17 and EPCIC adjudicated
- SPA finalized with BP Poseidon Limited
- Expected first production in 2Q 2022
- Construction of FLNG started in March 2018

Prosperidade/Mamba Field Ruvuma LNG – Area 1 & Area 4

- Straddling reservoirs with 34,4 TCF GIIP
- Equal joint venture (EEA and AMA1)
 through a joint operator
- Master Depletion Plan submitted
- Unitization and Unit
 Operating Agreement approved: May 2019
- PoD Approved: May 2019
- Ongoing negotiations for approvals Affiliated Buyers LNG SPA

Golfinho / Atum Field - Area 1 : LNG

- 31.3 TCF GIIP
- 20 Production wells
- PoD approved in February 2018
- 2 Trains each with 6 MTPA capacity (2023)
- FEED contract adjudicated: Chyoda/CB&I/Saipem
- Ongoing negotiations and approvals for LNG SPA:
 - Approved 8: EDF; Tohoku; Shell; Bahrat;
 Pertamina; Tokyo Gas; CNOOC/Centrica; Jera

Muito Obrigada pela Atenção

Thank you Very Much for your Attention
